

Key Features

- 1.Capacity:
 - 1) 55 Pints/Day, AHAM 80°F, 60%);
 - 2) 120 Pints/Day, Saturation (90°F, 90%).
 - 3) Capacity (DOE (60°F, 60% RH):34.53 PPD.
 - 4) Size for: 1,300 Sq. Ft.
- 2. Outlet: 6" big diameter air outlet, focused dehumidifying.
- 3. Draining: Gravity draining (no pump)
- 4. Supper COP: 2.4L/kwh

Overview

The AirWerx 55S Wi-Fi is able to extract over 55 pints of moisture a day. This ensures you are protected from water damage and avoid any health complication caused by excess moisture. Its sheet metal housing guarantees durability by protecting the dehumidifier from damage while being moved.

Equipped with multilayer aluminum filters that help cleanse the air off any dust and impurities, Auto defrosting system to avoid frost from forming and lowering the dehumidifier capacity. The AirWerx 55S Wi-Fi state of the art design protects it from overheating.

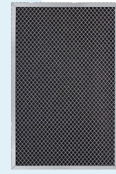

AirWerx 55S Wi-Fi Dehumidifier

Crawl space & Basement Dehumidifier

Winkle free tube

MERV-1 Filter

Remote Control (Optional)

Cable(Optional)

Specifications

Installation type/place	Small spaces – basements, crawl space, kitchen, laundry room.
Power	115V/60Hz
Size For	Up to 1,300 Sq. Ft.
Air Flow	130 CFM,230 CMH
Installation Type	Portable
Wi-Fi	Yes
Display Type	Digital.
Sound Level	<52 DBA
Draining	Gravity draining
Compressor Type	Rotary
Defrosting Control System	Auto defrosting
Bypass Air Sensor	Yes.
Memory Starting	All set settings remain the same even after a restart
Automatic Humidistat Control	Yes.
Easy Handling	Plug and play design - easy to operate
Functioning Humidity Range(%)	36~90%
Temperature Range (°F)	33.8~104 °F
Weight	51 lbs
Unit Dim(L x W x H)	19.2 x 12.2 x 13.3in
Refrigerant	R410A

Note: To maintain the effectiveness and efficiency of the AirWerx 55S Wi-Fi dehumidifier, it is important to ensure the space the dehumidifier is installed is airtight. This guarantee that the dehumidifier is able to maintain the humidity level low (below 50%). The biggest source of moist indoors is outside humid air.

AirWerx 55S Wi-Fi Dehumidifier

Crawl space & Basement Dehumidifier

Application

AirWerx 55S Wi-Fi Crawl Space Dehumidifier has a free WiFi APP that allows you to monitor the repair process anytime, anywhere, even when you're not at home. Remote Control via App: Turn your smart dehumidifier on via the "BaseAire" App while away from home. Worry less about unexpected power outages, only need to Remotely restart your dehumidifier via App. More features waiting for you to explore. The AirWerx 55S Wi-Fi Dehumidifier has cETL and ENERGY STAR approved. Energy Star Certified Dehumidifier-quickly and effectively removes moisture with less energy than conventional dehumidifiers without racking up your energy bill, saving you money. With patent for invention protected, the unit is in the top list of energy star products, This unit has a wide range of crawl spaces, basements, warehouses, offices, factories, shops , apartments, storage areas,restaurants, bars and museums where occur corrosion mold growth. It can also help to resolve damage to inventory and building maintenance due to dampness. AirWerx 55S Wi-Fi was introduced to provide one-stop service for your humidity problem. The preassembly external condensate connection point and side sliding filter make the installation process simple. The remote control design makes this unit an ideal choice for places where remote sensing and controlling is required. Optional duct mounting flanges reduce the installation time when connecting to an existing/new ducting systems.

All purpose use

- AirWerx 55S Wi-Fi is equipped with a duct (150mm in diameter) for focused dehumidification.
- Remote controlled - the AirWerx 55S Wi-Fi also you to control the dehumidifier setting remotely. Which saves time-saving and convenient.

Capacity

This unit is able to extract at least 55 pints of moisture per day, which is very impressive comparing its size and low energy consumption.

Support

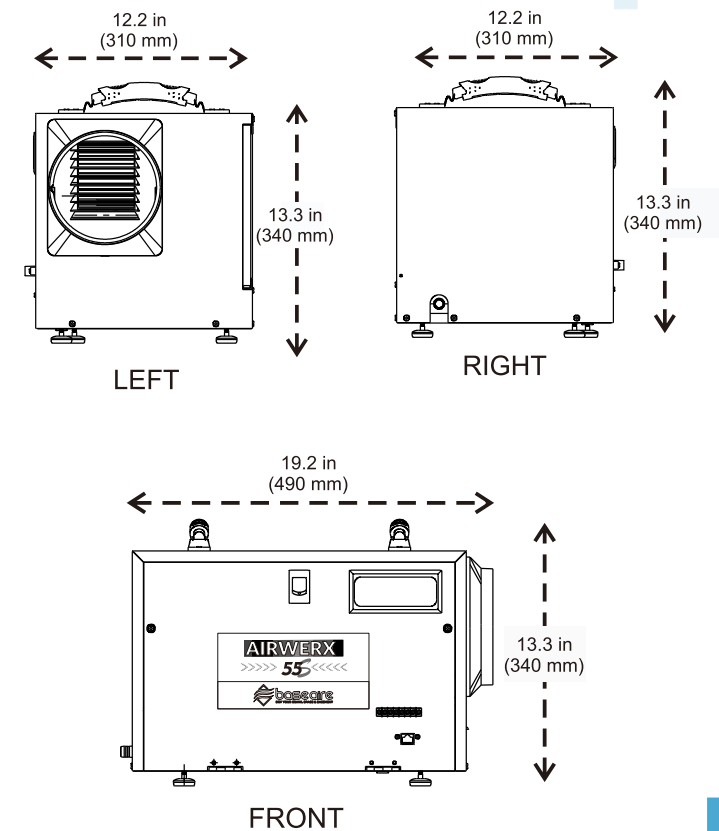

All our customers enjoy effective support, thanks to your technical support team via phone, email or via live support. This ensures that all the issues encountered by our customers while using the AirWerx 55S Wi-Fi are resolved promptly

Performance

Equipped with a humidity sensor,the AirWerx 55S Wi-Fi is able to sense a change in humidity and regulate the humidity levels accordingly. Built to remain fully operational in low temperatures and air flow issues spaces like the crawl space or the basement.

Warranty

At BaseAire all over have a **5**-year unit warranty. All our products are tested and proven to be fully operational before being released to the market. Our team of world engineers works tirelessly to ensure the AirWerx 55S Wi-Fi unit will exceed your expectations.
